

Monday, June 29, 2020

Dear Residents and Family Members,

I am writing to inform you, we have received 2 positive results from our COVID-19 testing last week on Thursday, June 25. Of the two positive cases, both were asymptomatic, one resident and one staff.

As a result, Presentation Manor will be in outbreak protocols for 14 days, this includes no outside visitation during this time.

We feel, we may have caught this early on. The outside agency PSW was wearing full personal protective equipment (PPE) at all times, and we have been testing everyone who comes into the residence. The governments' directive from 2 weeks ago was to only test staff. We went forward and tested all agencies coming to Presentation Manor to provide care and all residents as a precaution.

I will keep you updated as more information becomes available.

Please email me at [gperrault@presentationmanor.com](mailto:gperrault@presentationmanor.com)

We will continue to work hard to keep your loved one safe.

Sincerely,

Gord Perreault

Executive Director

Presentation Manor for Seniors
