

Monday, October 5, 2020

Dear Residents and Family,

I hope everyone is enjoying this beautiful fall day. Further to my memo from Saturday October 3rd, I am writing you to provide an update with regards to COVID-19.

We have received a positive COVID-19 test result for a part-time employee. The employee is currently at home in quarantine.

Our bi-weekly testing has proven to be very effective with keeping everyone safe.

At this time Toronto Public Health has chosen not to declare Presentation Manor in outbreak.

This is good news for all and means you can attend outside appointments and go for overnight visits. We will continue to restrict non-essential visitors from coming into the building until further notice.

Please continue social distancing and wearing your mask when going outside.

Thank you for your continued support.

Sincerely,

Gord Perrault

Executive Director

Presentation Manor for Senior Living
