Dining Area

What is that? Don't know what a hoedown is? A hoedown is type of American folk dance or square dance, and the musical form associated with it. The most popular sense of the term is associated with Americans in rural or southeastern parts of the country, particularly Appalachia. It is a dance in quick movement most likely related to the jig, reel, or clog dance. Join us this month as we listen to some classic country music and dance our hearts away. Plenty of food, drinks and great company.

The Francis Impact

Pope Francis has been pope for six extraordinary years. In that time, he has graced the cover of countless magazines and news media; movies and television series have been made of his life and reforming efforts; world leaders line up at the Vatican to greet him and seek council.

Francis has not shied away from the messiness of ordinary life, or the complexities of our global challenges. He's written and spoken on the environmental and refugee crises, the inequality of economic structures, the necessity of dialogue between faiths and cultures, and the need for the church to change its approach to complex pastoral situations. For many people around the world, he is the most authentic and credible moral leader.

As courageous and popular as Francis is, his impact cannot be restricted to a type of celebrity status. Francis himself does not like to be in the spotlight but seeks to encourage and empower people of all walks of life to work together in a tangible way to build a better world.

The Francis Impact tells the stories of some of these individuals and communities who have been impacted by Pope Francis. They are stories of empowerment, unexpected collaboration and deep transformation, in the areas of ecology, migration, inter-faith dialogue and pastoral reform. Far from the corridors of the Vatican, the real Francis impact is lived and felt among ordinary people who have been inspired by the Pope's call for more compassion, inclusion, sustainability and dialogue in a world torn apart.

Welcoming New Staff Members

General Interim Manager

David Winick

I grew up in the suburbs of Northern Toronto and have very large extended family. Surrounded by food from family events and at home spurred my love of cooking which led me to the culinary world. Building on that, I wished to help those who might need it from a nutrition perspective, so I went back to University to study Nutrition and Food Science. I've been able to develop products worldwide for Yogen Fruz, work in kitchens, catering, and long-term care facilities and now retirement homes. I'm always striving to improve and learn more and I hope that I can share and learn from your experiences for the time I'm able to be part of your community.

Amazonia: New Paths for the Church and for an Integral Ecology

Pope Francis has called for a special synod for the Amazon for October 6 – 27. The preparatory document was released on June 17th, 2019. It is entitled, "Amazonia: New Paths for the Church and for an Integral Ecology"

Scarboro Missions will host a presentation on July 30th here at Presentation Manor to give us a more indepth orientation to the event and its significant for the entire church. **Fr. Ron MacDonell, SFM** has spent many years in the Amazon working with indigenous and assisting them to recover and revitalize their native languages. Ron has a doctorate in Linguistics from Laval and will speak of his work and particularly the pastoral expectations for the Synod.

The upcoming Special Assembly of the Synod of Bishops for the Pan-Amazon Region, is drawing intense fire from conservative sectors. One of the most contentious issues from the moment the Synod of Bishops on the Amazon was announced, is 'viri probati', meaning tested married men who are pillars of their communities, would come up. Requests for consideration of the possibility of their ordination has been voiced with increasing urgency by bishops and other catholic personnel from the region for decades, and it was basically unthinkable a whole synod would go by without it being floated again. We will provide more background information before July 30th.

Dining Community

Presentation Manor accomodates both independent and assisted living. To continue our approach of building a community within a community, the staff at Presentation Manor would like invite the residents of the assisted living wing to join us in the dining area once a week.

Each week, one floor from assisted living will be invited and brought down to the dining area and have their meals with the independent residents. They will partake in our BBQ events in the summer time and special dinners in the colder months.
